

Taipan Traders P.D.S Data for Kitchen Degreaser

CAUTION - UN3266 • Corrosive Liquid Basic Inorganic N.O.S. • Poison S5 • HAZ 2X • PGIII • DG-Class 8 • EPG 8A1

Safety Advice: Taipan Traders strongly advise that the user of this product must read and fully understand both the PDS and MSDS data before using product.

Exceptional water based multi purpose degreaser, specifically designed for a commercial kitchen environment. This product removes oils, grease, ground in grime from commercial kitchens. Kitchen Degreaser releases oils and does not emulsify. Kitchen Degreaser works very well on bench tops, oven and stove top exteriors and flooring. This product is based on alkaline salts. *Refer to MSDS data for more detailed information.*

WARNING: Do Not Mist Spray this product, use hard jet directional spray only.

Method of Use: Use neat or dilute product 1 part to 5 - 10 parts hot water. Scrub areas and rinse off with fresh potable water.

Storage: Product is to be stored in a cool, protected area. Sheltered from sun and rain. Do not stack drums on top of each other, due to possible chemical hazard. Do not store near other reactive chemicals. Refer MSDS data.

Safety Directions: Wear eye protection, gloves, rubber apron and boots. Avoid eye and skin contact with solution. Avoid inhalation of powder and or fumes.

First Aid: If swallowed contact a doctor or poisons information centre. Phone 13 11 26. If product makes contact with eyes, flush eyes with fresh water immediately for at least 15 minutes. Skin contact remove contaminated clothing, wash skin with neutral soap and water and report to doctor as soon as possible with MSDS data.

Emergency Phone: 0417 591 114 or 07 5559 1333
